8/21/68

Dear Paul,

I did not obtain the attached from the Commission's files. I think it best we go over this carefully and see if there is anything I should do about it. I think some of the wording may fascinate you. Let me know what you'd like me to do and I will. I'll be in Washington again Wed. 8/28 and can make requests them. Some interest me, from casual examination. Perhaps for the moment, keep this within your group.

None of the work had even been commenced by today, though all of it had been promised. They wrote pretending they did not have a check they did have (a painful one to write, may I add!) as a cover. Simmons apologized today, said Johnson was away, and promised to have 100% by next week.

If I have a ms to spare (there is interest abroad and here, which may mean nothing but must be met) I'll mail as fast as I can. I may have to ask its return before John can read. Wont unless I must

Must rush to get to the PO for something else.

If I haven't mentioned the to-me mysterious death of Philip Ceraci III by electrocution, an odd death for a man with his employment, I will later.

Best to all,
